VIDEO GAME

TRENDS

START

A stylized illustration of a Nintendo Switch console. The console is black with a large grey rectangular screen in the center. On the left side, there is a blue Joy-Con controller with a black circle at the top, a D-pad in the middle, and a small square button at the bottom. On the right side, there is a red Joy-Con controller with a D-pad at the top, a large black circle in the middle, and a small circle button at the bottom. The background is a solid light blue color.

INTRODUCTION

The project is about looking for video game trends based on the dataset which contains a list of video games from the year 1980 all the way to 2016

**DATA
VISUALIZATION
TOOL USED IS
TABLEAU**

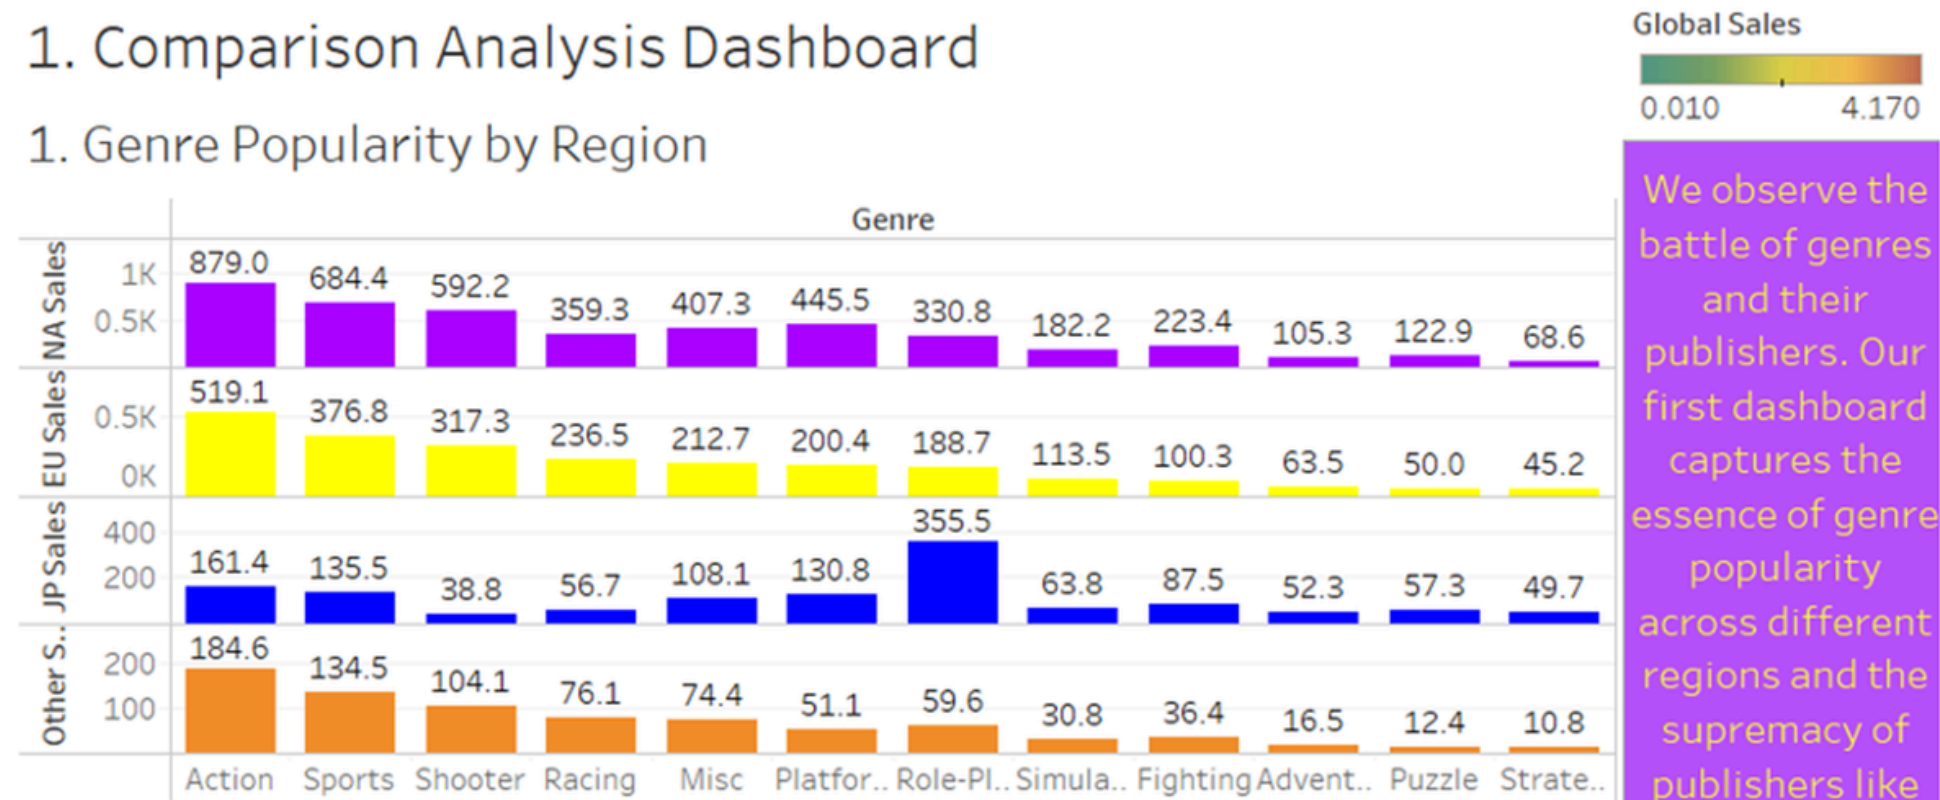

A stylized illustration of a Nintendo Switch console. The console is black with a large grey screen in the center. On the left is a blue Joy-Con controller with a black circle at the top, a D-pad in the middle, and a small square button at the bottom. On the right is a red Joy-Con controller with a D-pad at the top, a large black circle in the middle, and a small circle button at the bottom. The background is a solid light blue.

Video Game Trends - A Data Narrative

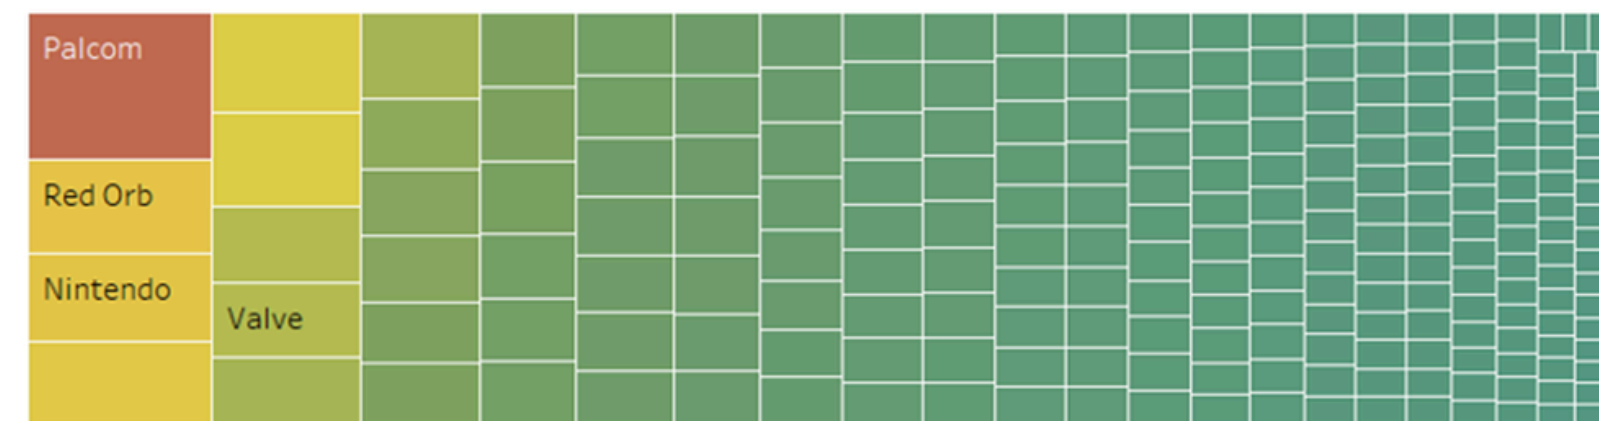

CONTINUE

1. Comparison Analysis Dashboard

1. Genre Popularity by Region

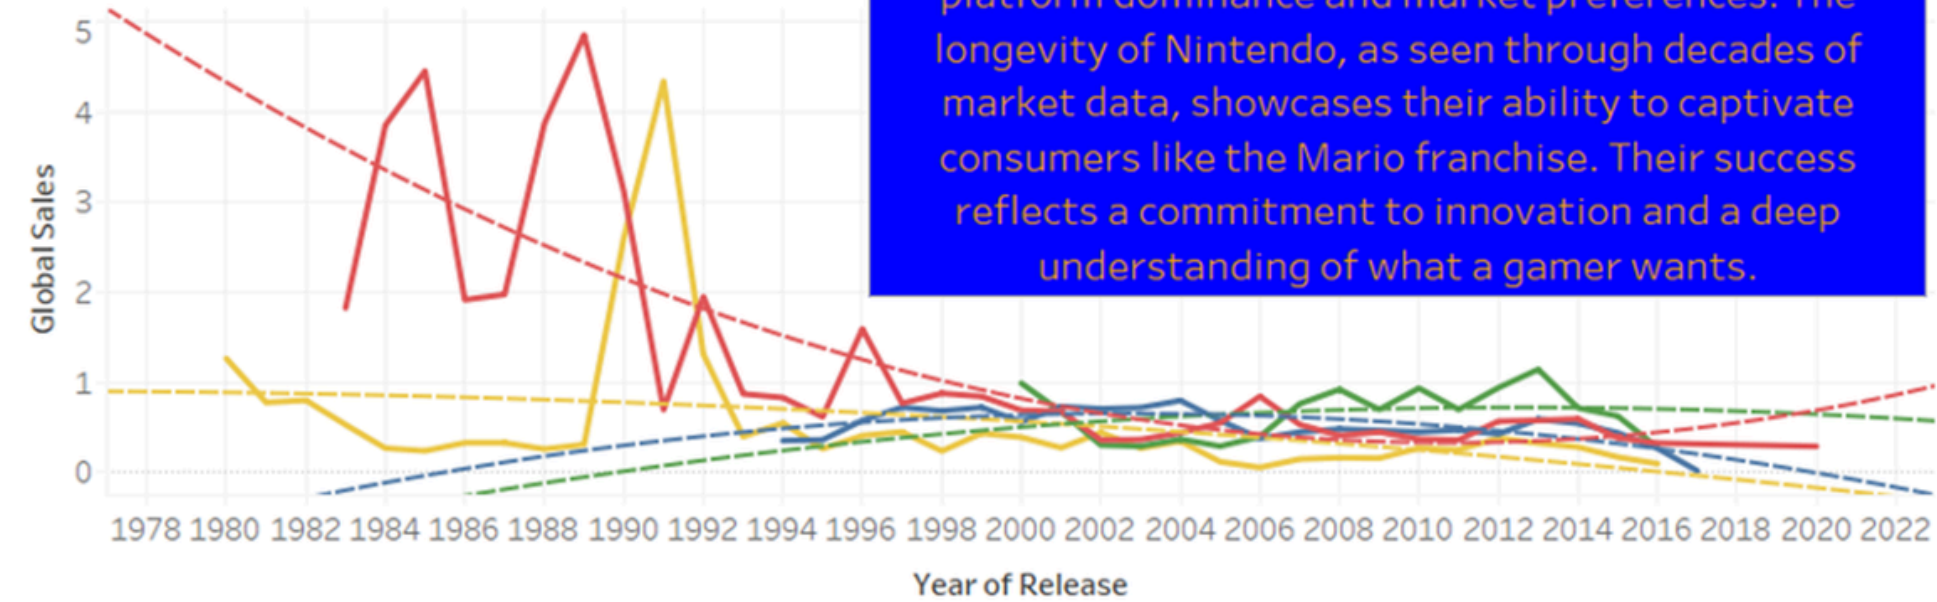

2. Top Publishers by Global Sales

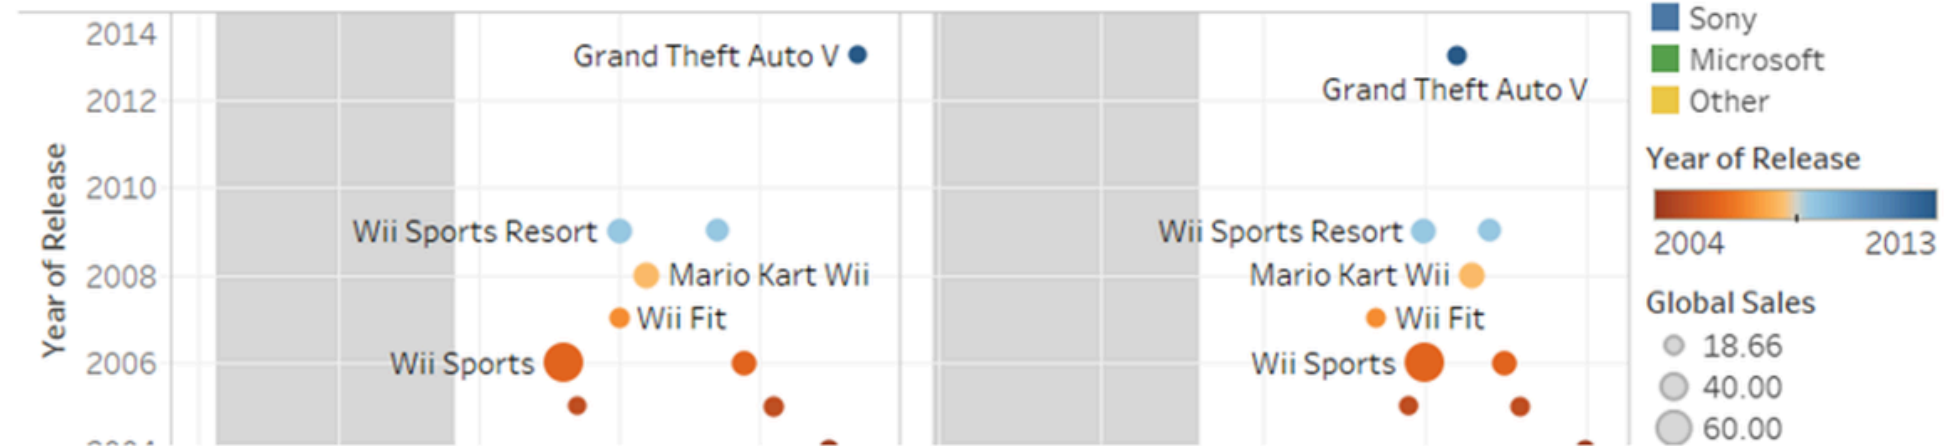

We observe the battle of genres and their publishers. Our first dashboard captures the essence of genre popularity across different regions and the supremacy of publishers like Nintendo. The data illustrates Nintendo's strategic focus on role-playing games (RPGs), resonating with the Japanese consumer's preferences.

2. Time Series Analysis Dashboard

3. Platform Market Share Over Time

4. Impact of Ratings on Sales Over Time

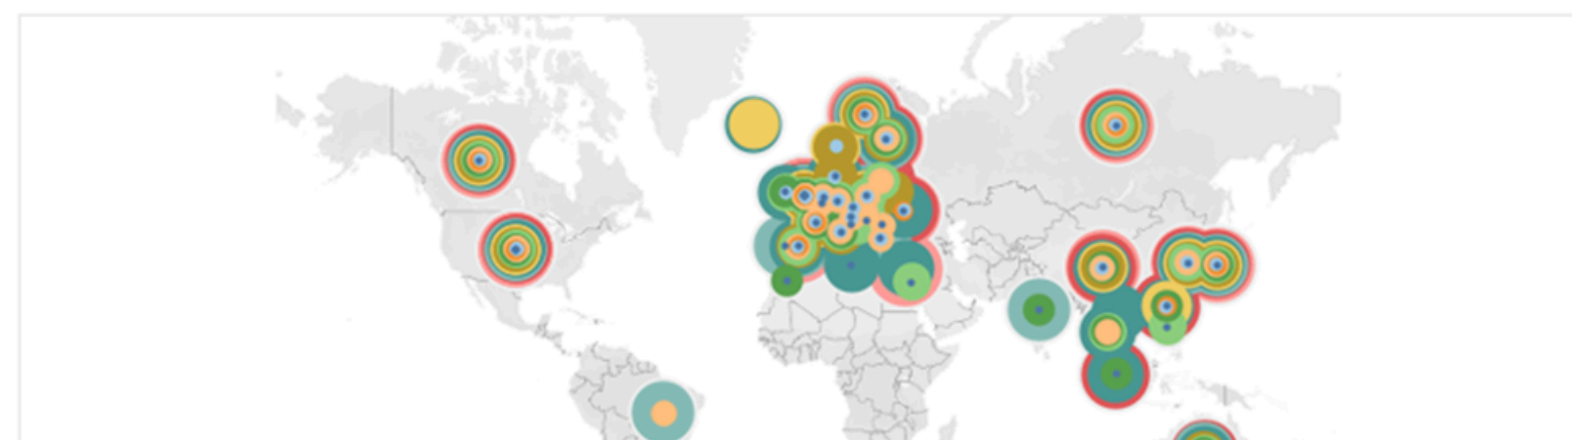

3. Geo-spatial Analysis Dashboard

5. Sales Distribution by Region

6. Genre Distribution Across Regions

A stylized illustration of a Nintendo Switch console. The console is black with a large grey rectangular screen in the center. On the left side of the console is a blue Joy-Con controller, and on the right side is a red Joy-Con controller. Both controllers have black buttons and a black circle. The background is a solid light blue color.

CHALLENGES

- The dataset was lacking location of publishers/developers like which country/region were they based from so had to make a supplementary dataset for this to enable the map visualization
- Trial and error was encountered trying to make the visualizations make sense with analysis questions

ANALYSIS HIGHLIGHTS

1. Comparison Analysis

- Japan prefers the role playing game (RPG) genre and the rest of the world enjoys action games
- Nintendo is in the top 3 of publishers and has a hand in Japanese consumers preference for RPGs

A stylized illustration of a Nintendo Switch console, represented by a black horizontal bar with rounded ends. On the left end is a blue Joy-Con controller with a black circle at the top, a D-pad in the middle, and a small square button at the bottom. On the right end is a red Joy-Con controller with a D-pad at the top, a large black circle in the middle, and a small circle at the bottom. The background is a solid light blue.

ANALYSIS HIGHLIGHTS

2. Time Series Analysis

- Nintendo as a company has stood the test of time continuing to be relevant in the video game industry today
- The Mario franchise of Nintendo continues to be enjoyed by generations young and old

A stylized illustration of a Nintendo Switch console. The console is black with a grey screen in the center. On the left side, there is a blue Joy-Con controller with a black circle and four black dots. On the right side, there is a red Joy-Con controller with a black circle and four black dots. The background is a solid light blue color.

ANALYSIS HIGHLIGHTS

3. Geo-spatial Analysis

- North American region enjoys all video game genres
- North America is a melting pot of nationalities/cultures all around the world which enjoys all genres and hugely contributes to video game global sales

TAKEAWAY

- It was a thoroughly enjoyable project
- More datasets needed to be able to make more untapped insights about video game trends
